5-YEAR INSTITUTIONAL DEVELOPMENT PLAN

OF

CITY COLLEGE OF CAGAYAN DE ORO

2024-2029

MESSAGE OF THE MAYOR

To My Fellow Kagay-anons,

I hope this message finds you well. It is with great pride and a sense of accomplishment that I announce the establishment of the City College of Cagayan de Oro, a monumental step forward in our collective pursuit of progress and development under the RISE CDO governance platform, explicitly focusing on Safety, Security, & Human Development and Economic Recovery.

Our journey towards this significant milestone has been nothing short of remarkable, and I am thrilled to witness this vision become a reality. The City College stands as a testament to our unwavering commitment to the betterment of our beloved city and the future of our youth.

I extend my heartfelt gratitude to the dedicated members of the Technical Working Group who have tirelessly worked on crafting the Institutional Development Plan (IDP) for the City College. Your dedication and expertise have been invaluable in shaping this institution, which will undoubtedly become a cornerstone of educational excellence in our region.

I also wholeheartedly support City College's Institutional Development Plan (IDP) and its vision for the future. The IDP outlines a comprehensive roadmap for the college's growth and development, ensuring that it becomes a hub for knowledge, innovation, and human empowerment. I hope that the Governing Board will also lend its support to this crucial plan.

To the esteemed staff and faculty who will nurture the minds of our future leaders, I extend my warmest wishes and encouragement. Your commitment to delivering quality education will pave the way for countless success stories, and I do not doubt that you will rise to the occasion.

To our valued stakeholders, both within and beyond our city's borders, I invite you to join hands with us in this noble endeavor. Your support and collaboration are vital in creating a brighter future for our youth and our community.

I would also like to acknowledge our brothers and sisters of the Higaonon Indigenous Peoples of Nahilaran, whose partnership and collaboration have been instrumental in establishing the City College. This endeavor is a testament to our commitment to inclusivity and diversity, ensuring that educational opportunities are accessible to all.

The establishment of the City College of Cagayan de Oro is a beacon of hope for our youth, offering them a chance to access quality education right here in our city. It represents the embodiment of our dreams for a safer, more secure, and more prosperous future.

Let us stand together in support of this endeavor, knowing that by investing in education, we are investing in the future of our city. With your unwavering support, I am confident that City College will shine as a symbol of excellence and promise for generations to come.

Thank you, Cagayan de Oro, for your trust and unwavering dedication to our shared vision of progress and prosperity. *Sa Pag-uswag, Kauban Ta Uy!*

Sincerely,

HON. ROLANDO "KLAREX" A. UY

City Mayor

MESSAGE OF THE PRESIDENT

Dear Members of the City College Community,

It is with immense pride and great enthusiasm that I present to you the City College of Cagayan de Oro's Institutional Development Plan (IDP) 2024-2029, a blueprint for our journey towards academic excellence and community empowerment. This plan, deeply rooted in Mayor Rolando "Klarex" Uy's RISE CDO governance platform, embodies our shared commitment to Safety, Security, & Human Development and Economic Recovery, with a focus on serving the needs of our brothers and sisters from the Higaonon Indigenous Peoples of Nahilaran.

Our IDP 2024-2029 is built upon six key pillars, each representing a critical aspect of our mission to provide exceptional education and contribute to the growth of Cagayan de Oro:

Development, mapping, implementation, and evaluation of relevant curricula *(Curriculum and Co-Curriculum)*: We will continuously refine and innovate our curricula to ensure they remain relevant in a rapidly changing world. This involves mapping learning outcomes, designing forward-thinking courses, implementing effective teaching strategies, and regularly assessing our programs to guarantee their effectiveness.

Research and Innovation for Institutional Commitment and Policy *(Institutional Commitment and Policy)*: We are committed to fostering a culture of research and innovation. Through the provision of resources, support for research endeavors, promotion of collaborations, and the integration of emerging technologies, we aim to become leaders in scholarly excellence and policy innovation.

Organizational development and strengthening of sustainable leadership and structure *(Leadership and Structure)*: To support our vision and mission, we will develop sustainable leadership and organizational structures. This will involve providing opportunities for professional development, fostering inclusivity and a positive work environment, and implementing effective governance practices.

Network and partnerships *(Partnerships)* and continued engagement with indigenous peoples: We recognize the power of collaboration and will actively seek and nurture strategic partnerships with stakeholders across sectors. These partnerships will open doors to collaborative initiatives, knowledge exchange, internships, and industry exposure, thereby enhancing our students' practical skills.

Expand funding opportunities, financial resources, and alternative revenue streams (*Institutional Sustainability*): As we expand our research activities, diversify program offerings, and enhance economic sustainability, we are laying the foundation for the long-term growth and development of our institution. This will enable us to provide innovative educational opportunities and secure our future.

Service Learning & Exchange (*Mobility of Faculty, Staff, and Students*): We understand the importance of a highly motivated and skilled workforce. Thus, we will prioritize local and global partnerships, engagements, and exchange programs to ensure that our faculty and staff remain dynamic and committed to our institution's vision and mission.

This IDP is not merely a document; it is a roadmap to transform our aspirations into reality. It is a testament to our dedication to the youth of Cagayan de Oro and the future development of our beloved city. It is a call to action —an invitation for all of us—the Governing Board, City College Faculty and Staff, Stakeholders, and the entire community—to unite, commit, and work tirelessly to ensure the successful implementation of this plan.

As we embark on this journey, let us remember that our mission is not only to educate but also to empower and uplift. Together, we will create a brighter, more prosperous future for the youth of Cagayan de Oro. Thank you for your unwavering support and dedication to this noble cause. Let us forge ahead, hand in hand, toward a brighter future.

Sincerely,

JESTONI P. BABIA, LPT, MAEd, Ed.D

President, City College of Cagayan de Oro

VISION:

"A City College that nurtures and produces global citizens supported by cutting-edge technologies for innovation and excellence by 2033."

MISSION:

"Our mission is to provide transformative and inclusive learning driven by cutting-edge technologies, including artificial intelligence, that equip the institution and the community to create innovative, relevant, and data-driven solutions for local and global impact.

We are committed to addressing the needs of the Cagayan de Oro youth and the indigenous peoples' communities by respecting and incorporating their culture and traditions to address societal challenges and drive positive change.

We actively contribute to sustainable development goals by forging strategic partnerships, engaging relevant research and extension, and equipping our graduates with professionally-aligned competencies."

GOALS:

1. **Academic Excellence and Innovation:** Establish a culture of academic excellence and innovation by integrating cutting-edge technologies, including artificial intelligence, into the curriculum.
2. **Inclusivity and Cultural Sensitivity:** Foster inclusivity and cultural sensitivity to address the needs of both the local youth and indigenous communities.
3. **Community Engagement and Impact:** Actively contribute to sustainable development goals and drive positive change within the local community.
4. **Transparency, Openness, and Ethical Conduct:** Uphold an environment of transparency, integrity, mutual respect, and ethical conduct in all aspects of the institution's operations.
5. **Environmental Stewardship:** Pursue environmental sustainability and responsible development.

OBJECTIVES:

Integral to the attainment of its Vision and Mission, City College of Cagayan de Oro commits itself to:

1. Incorporate advanced technologies into all academic and administrative processes, including artificial intelligence and other emerging technologies;
2. Equip graduates with professionally aligned knowledge, skills, and competencies pertinent to local, national, and global job markets;
3. Establish an educational setting that is inclusive and transformative, embracing diverse cultural viewpoints and working towards equity;
4. Cultivate a global perspective among students by strengthening and perpetuating the institutional culture of globalization and internationalization;
5. Support sustainable development goals by collaborating strategically, conducting research, and implementing community outreach programs while upholding transparency, ethical conduct, and inclusive practices in all engagements;
6. Provide culturally and socially appropriate student programs to meet the needs of diverse students, including those from Indigenous groups, the handicapped, low-level income groups, international students, and other special groups in the school community;
7. Encourage academic excellence and innovation by fostering quality teaching and learning, research, creative work, and continuous improvement efforts; and
8. Establish collaborations with internal and external stakeholders to provide students with practical experiences and opportunities for employment.

CORE VALUES:

ADAPTIVENESS. We embrace change and possess the flexibility to navigate evolving landscapes, a changing society, and the diversity of people, for advancing quality learning and preparing students for the 21st century and upliftment of the community.

INNOVATIVENESS. We push boundaries and explore new ideas that will lead to new and innovative solutions to poverty, social inequality, unemployment, digital divide, and climate change.

MISSION-DRIVEN. We commit to a shared vision of making a meaningful difference and contributing to the greater good by providing and maintaining a student-centered campus experience where everyone is respected and empowered.

HONESTY. We uphold an environment of transparency, integrity, and ethical conduct in all aspects of curriculum, instruction, research, and community engagements.

INCLUSIVITY. We celebrate diversity and promote inclusivity in all aspects of our institution. We value unique backgrounds, experiences, and perspectives of our students, faculty, and staff. We strive to create an inclusive and welcoming environment that respects and appreciates the contributions of every individual, ensuring equal opportunities for growth and success.

GOD-FEARING. We deeply acknowledge the profound importance of spirituality and moral grounding in our institution. Guided by principles of faith, compassion, and justice, we strive to cultivate a nurturing environment that fosters personal and collective growth.

HUMANE. We recognize and value the inherent dignity and worth of every individual. We are dedicated to treating everyone with respect, empathy, and understanding. We strive to treat everyone with empathy, kindness, and compassion, both within our organization and in our interaction with the wider community.

EXCELLENCE. We pursue continuous improvement and set high standards for ourselves, pushing beyond expectations to achieve exceptional results in environmental stewardship, sustaining life, and responsible development.

RESPECT. We cultivate an environment of mutual respect, where diverse perspectives are valued, and differing opinions are heard. We place a premium on open dialogue, professionalism, empathy, ethical conduct, and personal growth. We foster a sense of belonging, collaboration, and well-being for all members of our community.

QUALITY POLICY STATEMENT

At the City College of Cagayan de Oro, students are deeply committed to upholding excellence in education, research, and community service. They foster a diverse and inclusive learning environment, cultivating adaptable innovators, mission-driven professionals, ethical leaders, data-driven problem solvers, and engaged community contributors. The institution empowers graduates with the tools to address complex challenges, encourage innovation, and promote positive societal change. Through transparency, accountability, and inclusivity, it ensures that education is a transformative force, shaping leaders who make a meaningful impact in their communities and beyond.

The 5-Year Institutional Development Plan (IDP) of City College of Cagayan de Oro

The City College of Cagayan de Oro's Institutional Development Plan (IDP) is a strategic framework that outlines the college's vision, mission, goals, core values, and key focus areas, guiding its growth and development. The IDP serves as a roadmap for the institution, aligning its aspirations with the changing landscape of education and the evolving needs of the community.

The IDP of the City College of Cagayan de Oro is rooted in a commitment to align with global development priorities while addressing the pressing educational needs of our local community, with a particular focus on the youth in Cagayan de Oro, especially within the underserved Nahilaran Community. Our vision is to nurture and develop global citizens empowered by Artificial Intelligence (AI) and emerging technologies, fostering innovation and excellence by 2033 and aligning with the United Nations Sustainable Development Goals (SDGs). This commitment extends to our active role in the Philippine Development Plan 2023-2028, which emphasizes inclusive economic growth and poverty reduction, anchoring our efforts in the broader context of national development. Our dedication to inclusivity further underscores our alignment with the Cagayan de Oro RISE Development Agenda, which prioritizes Regional Leadership. Furthermore, as an institution of higher learning that endeavors to integrate quality and sustainability in all facets of its operations, the IDP is anchored on the Commission on Higher Education's Institutional Sustainability Assessment (CHED-ISA). Alignment and consistency with the institution's VMG at exceptional levels, as demonstrated by learning outcomes and the development of a shared culture of quality and sustainability, are the bedrock of the CCCdO IDP.

The IDP addresses the gaps between traditional educational practices and the evolving demands of the digital age. It recognizes the need for graduates with adaptive, innovative mindsets, ethical leadership skills, and the ability to harness data and technology to advance society. By aligning its curriculum with industry demands and global trends, the college aims to bridge the gap between academic learning and real-world applications. The IDP also addresses the need for faculty and staff support, focusing on their engagement, professional development, and the cultivation of a positive work environment.

To achieve its objectives, the Institutional Development Plan focuses on five key result areas (KRAs):

KRA 1: **Governance and Management**. The college's governance system upholds the principles of integrity, accountability, participatory leadership, strategic foresight, and sound decision-making by its governing body. It ensures alignment with national policies, local development goals, and inclusive education priorities. Meanwhile, management focuses on operational systems that keep the institution responsive to both internal and external developments, including financial controls, quality assurance, human resource development, digital transformation, and data privacy and protection in compliance with relevant laws and regulations. This Key Result Area (KRA) also promotes gender-responsive, inclusive, and rights-based institutional practices, such as establishing GAD mechanisms, PWD-accessible restrooms, gender-neutral toilets, lactation stations, and child-minding facilities. It further includes the institutionalization of campus-based disaster risk management (CDDRM), integrating risk assessment, safety drills, emergency protocols, and partnerships

with local DRRM offices to strengthen campus safety and preparedness. Together, governance and management drive continuous improvement, resource mobilization, and innovation, all of which contribute to a safe, efficient, and sustainable learning and working environment.

KRA 2: **Quality of Teaching and Learning**. The college's Quality of Teaching and Learning encompasses the process of approving and implementing programs. It ensures that the programs align with the institution's goals and desired competencies for its graduates while also considering risks, resources, and potential markets. The system is effectively implemented to achieve the intended outcomes and contributes to the region's or country's development needs. It also includes effective monitoring and review arrangements contributing to program effectiveness and continuous quality improvement. This area also encompasses the processes for hiring, retaining, and developing faculty with the necessary expertise and competence, as well as the structures that facilitate the effective utilization of learning resources by faculty and students.

KRA 3: **Quality of Professional Exposure, Research, and Creative Work/Innovation.** The City College of Cagayan de Oro (CCCdO) is dedicated to creating a vibrant environment for hands-on learning, research, and creative activities that support both local and global development. The college helps faculty and students gain real-world skills that align with employer needs by creating partnerships with businesses, connecting internationally, and offering hands-on experiences such as OJTs, internships, and consultancies. Simultaneously, the institution advances research culture by providing capacity-building workshops, incentivized publishing, and interdisciplinary collaborations that support scholarly productivity and strengthen contributions to education, environmental sustainability, social equity, and technological advancement (SDG 4: Quality Education, SDG 9: Industry, Innovation and Infrastructure, SDG 13: Climate Action). Creative work and innovation are equally prioritized through exhibitions, digital tools, patent support, and recognition programs, which encourage original outputs in arts, design, technology, and pedagogy—creating meaningful pathways to inclusive and sustainable urban and cultural development (SDG 11: Sustainable Cities and Communities, SDG 10: Reduced Inequalities). As part of the institutional alignment to the **RISE Agenda of Cagayan de Oro City**, this KRA enhances research excellence and operationalizes CCCdO's commitment to the **2030 Sustainable Development Agenda**, ensuring that higher education remains a proactive agent in driving innovation, social transformation, and resilient futures for Mindanao and beyond.

KRA 4: **Support for Students**: The college's Support for Students acts as the foundation for delivering student affairs and services by managing the entire student experience, from targeted recruitment and fair admissions processes (supported by need- and merit-based scholarships) to comprehensive academic support through orientation, advising, tutoring, and learning-skills workshops. It also ensures that non-academic needs are addressed through counseling and wellness programs, residential life and dining services, and active engagement in clubs, governance, and community service. Career and leadership development are integrated into this framework through internships, mentoring, and job-placement initiatives, while dedicated equity and access strategies support Indigenous learners, students with disabilities, low-income students, and international students. By connecting these elements into a unified, student-focused model, KRA 4 ensures that each student receives personalized guidance, holistic development, and the structural support needed to persist, graduate, and succeed beyond campus.

KRA 5: **Relations with the Community**. The College strengthens its community relations through structured, relevance-driven, and sustainability-oriented programs responsive to local, regional, and national development priorities. Academic and service programs, particularly the National Service Training Program (NSTP), are aligned with identified community needs through service-learning and community-based components that enhance graduate employability and community-responsive competencies, thereby supporting SDGs 4, 5, 10, 11, 16, and 17. Strategic partnerships with LGUs, industry partners, civil society organizations, and professional networks are formalized to support collaborative program delivery and institutional sustainability. Planned extension programs are implemented through needs-based, community-driven interventions with systematic monitoring and impact evaluation. Outreach serves as a responsive mechanism through which the College provides expertise and support in response to formal requests, invitations, and LGU-mandated activities. Through these integrated efforts, the College emerges as a transformative force in extension and social development, fostering empowered citizens, equitable progress, and sustainable social change.

In a nutshell, the 5-year Institutional Development Plan serves as a beacon of our unwavering commitment to fostering excellence across governance and management, enhancing the quality of teaching and learning, expanding professional opportunities, advancing research and creative endeavors, providing robust support for students, and strengthening our ties with the community. As the school embarks on this transformative journey, we remain steadfast in our dedication to innovation and inclusivity, ensuring that our institution not only meets but exceeds the standards of educational and societal contribution. Together, we will build a legacy of distinction and impact for future generations.

In conclusion, the Institutional Development Plan of the City College of Cagayan de Oro outlines the college's strategic roadmap for the future. It aspires to nurture global citizens who are equipped with adaptive and innovative mindsets, possess ethical leadership skills, excel in data-driven excellence, and actively contribute to their communities. By addressing the gaps in traditional education, fostering partnerships, and focusing on faculty and staff support, the IDP paves the way for the college to become a leading institution that embraces the power of AI and emerging technologies while remaining committed to its core values (AIM HIGHER) of adaptability, innovation, mission-driven approach, honesty, inclusivity, god-fearing, humanity, excellence, and respect.
